

END CAP PUFF DIFFUSER™

Low Profile Color Accent Linear Ceiling Diffusers

RLR Industries, Inc. is proud to introduce a revolutionary product for fluorescent luminaires: The End Cap Puff Diffuser.

This new product allows the lighting designer and OEM to provide a highly styled, yet cost effective alternative to traditional surface mount fluorescent luminaries.

The assemblies will mate with standard 2 foot and 4 foot wrap fixtures which are used for Puff diffusers. A variety of sizes are available.

The diffuser assembly consists of compound curved end caps mated to a contemporary styled, low profile white acrylic lens. The end caps are available in a diverse range of colors from Translucent White to a choice of Faux Marble and Granite Grains.

RLR can develop a custom color, extrusion, or end cap upon request for the OEM. Custom diffuser lengths and a Sandblast finish on the end caps are available, please contact the factory for details.
