DESCRIPTION

The 1300 series component set consists of an injection molded polycarbonate lens and an injection molded polycarbonate housings. The contemporary styled sets are suitable for either ceiling or wall mounts in commercial, residential, or hospitality applications.

The lens attaches to the housing via an integral tab and snap design. If the OEM utilized approved lamps, ballast and associated electrical components, a damp location luminaire can be realized.

The reflector plate for both square and round has layouts for PL and circline lamps. The plate is stamped from precoated white steel.
